

Project Development Phase Delivery of Sprint - 2

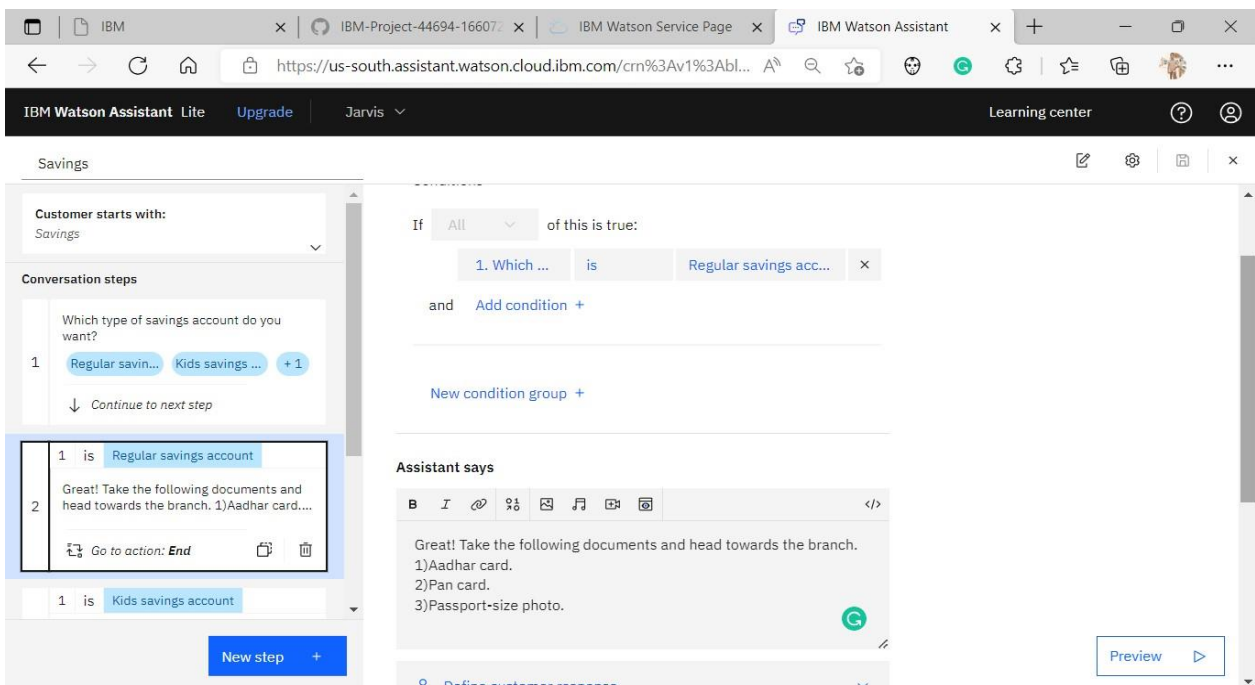

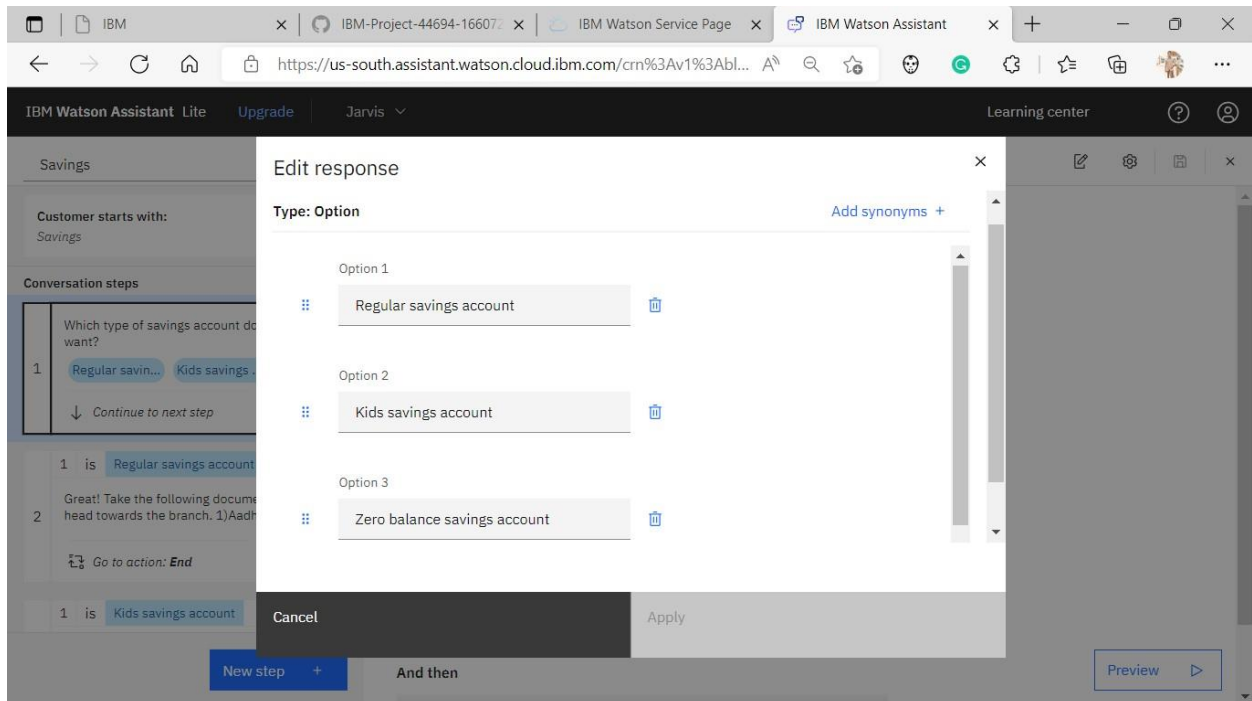

Date	05 November 2022
Team ID	PNT2022TMID40074
Project Name	AI-based discourse for Banking Industry

Creating Saving Account Action

Create a saving account in IBM Watson. Create new **Action** Saving.

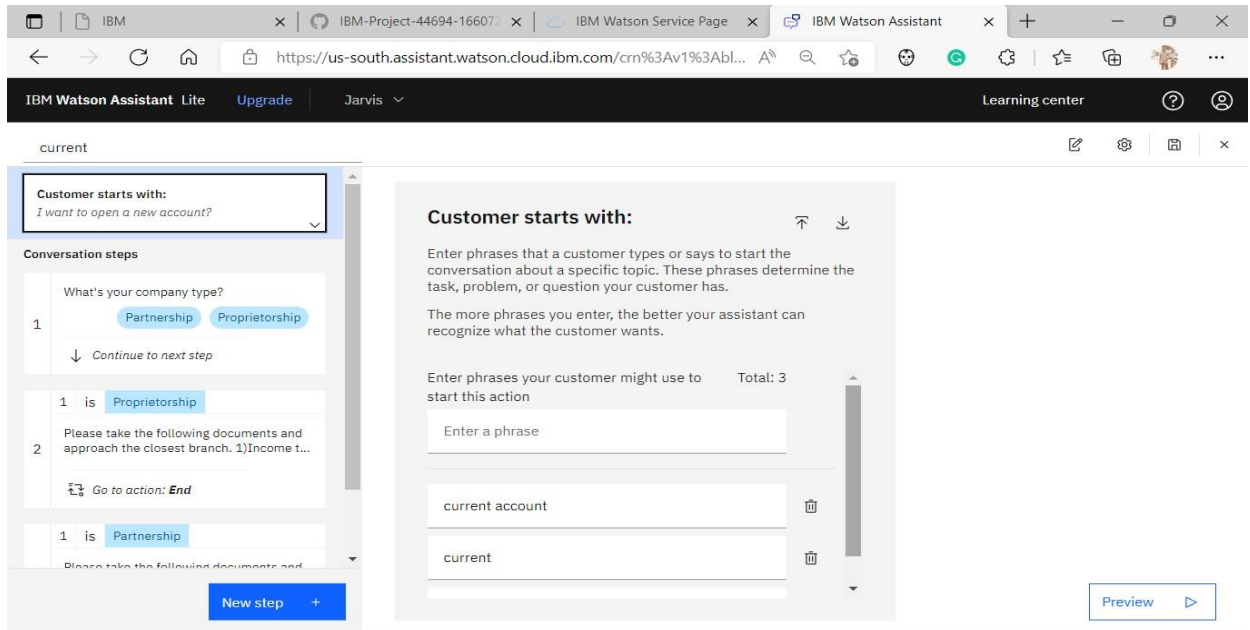

The screenshot displays the IBM Watson Assistant interface for configuring a 'Savings' action. The browser tabs at the top include 'IBM', 'IBM-Project-44694-16607', 'IBM Watson Service Page', and 'IBM Watson Assistant'. The URL bar shows a link to the assistant's configuration page. The interface features a dark header with 'IBM Watson Assistant Lite', an 'Upgrade' button, a 'Jarvis' dropdown, and a 'Learning center' link. The main content area is titled 'Savings' and includes a 'Customer starts with:' dropdown set to 'Savings'. Below this, the 'Conversation steps' section shows a sequence of steps: 1. 'Which type of savings account do you want?' with options 'Regular savin...', 'Kids savings ...', and '+ 1'; 2. '1 is Regular savings account'; 3. 'Great! Take the following documents and head towards the branch. 1)Aadhar card....'; 4. 'Go to action: End'; 5. '1 is Kids savings account'. A 'New step +' button is at the bottom left. On the right, a detailed view of the 'Customer starts with:' section explains that phrases determine the task and provides a text input field labeled 'Enter a phrase' with a 'Total: 1' counter. A 'Savings' label and a trash icon are also present. A 'Preview' button with a play icon is at the bottom right.

Add steps in savings action.

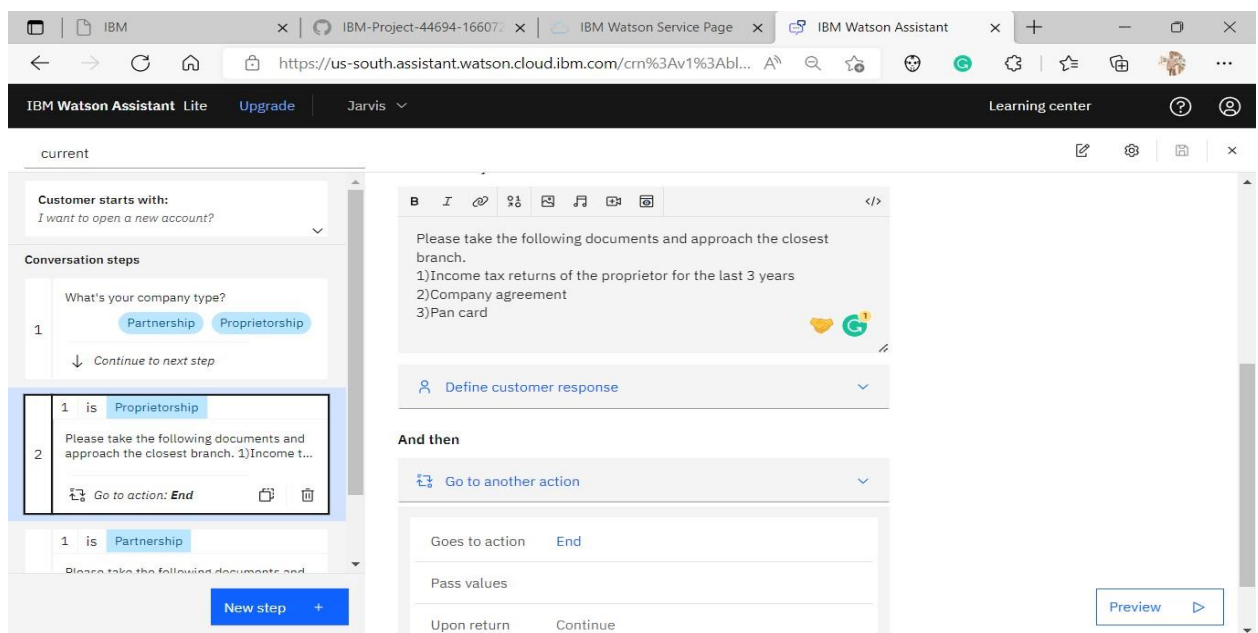

Creating Current Account Action

Create a new **Action Current** for the current account action.

Add steps in savings action.

Note: No code for this project. So, I attached the screenshot and step to build it.
